

F2 Logistics Safety Health & Environment Committee

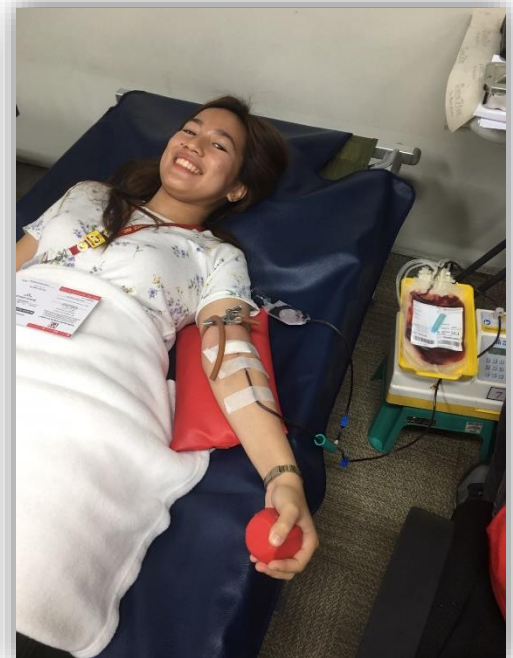

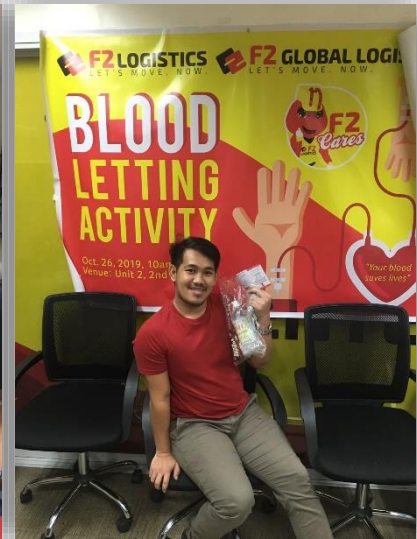

Executive Summary Report

October 2019

For October, SHE program started with the Blood Letting Activity, in coordination with Philippine Red Cross. F2 employees were able to donate 15 bags of blood last October 26, 2019. There were 23 volunteers but only 15 were qualified to donate. Most of the deferred donors were low in hemoglobin.

Objective of this activity was to help the community by donating blood to save lives and to provide awareness of the benefits of donating blood for our employees.

It is the first time for the head office to have this activity and this will be a yearly activity in F2 Logistics and F2 Global Logistics. Initially, this activity has been conducted in our branch.

As part of our efforts in supporting our local government, F2 Logistics and F2 Global Logistics joined a run for a cause activity organized by Barangay San Dionisio of Paranaque City Last October 27, 2019.

End D' Run's goal is to create awareness in fighting Depression, Diabetes, Drug addiction, Dengue and Malnutrition. We also see it as a way of promoting healthy lifestyle for our employees.

Also, This activity helps our company build relationship with the community.

Last activity for the month of October is the Bomb Threat Awareness Seminar last October 28, 2019.

In coordination with SDP our security provider, F2 SHE Committee was able to educate the employees with knowledge and awareness on what to do in case of unwanted events like bomb threats in our offices or warehouses.

It was attended by almost all of the SHE Team Members.
