Legend:

|        | Probability of Occurrence | Based on Average No. of Transaction/Cases (MNL) | Based on Average No. of Transaction/Cases (DVO) |  |  |
|--------|---------------------------|-------------------------------------------------|-------------------------------------------------|--|--|
| High   | Almost certain will occur | 21 and above                                    | 11 and above                                    |  |  |
| Medium | Occur at some time        | 11 to 20                                        | 6 to 10                                         |  |  |
| Low    | Remote Possibility        | 0 to 10                                         | 0 to 5                                          |  |  |

| Severity of Risk |                                               |  |  |  |  |  |
|------------------|-----------------------------------------------|--|--|--|--|--|
| Critical         | Will greatly affect stakeholders satisfaction |  |  |  |  |  |
| Non-Critical     | Less effect on stakeholder satisfaction       |  |  |  |  |  |

|                                               |                                                  |                                                                                                   |                                                                                                                                                                                     | PROCESS RISK ASSESSMENT MATRIX                                                                                                                                                                                         |                                                                                          |                                                                                                                                           |                                                       |  |  |  |  |  |
